

JOIN THE EXCITING WORLD OF **DRONES**

Are you interested in working in the drone industry? Look no further than Global Drone Solutions! We offer two options for our Remote Licence (RePL) course to help you get started in your career.

OPTION 1 5-DAY IN-CLASS REPL COURSE

Our in-class RePL course is a 5-day program that covers everything you need to know to get your remote pilot licence. You'll learn about the regulations, safety procedures, and equipment needed to operate a drone, and receive hands-on training from our experienced instructors. This is the perfect option for those who prefer a more traditional learning experience.

Fees: \$2995 (includes the Remote Pilots Licence and Aeronautical Radio Operators Certificate (AROC) and all CASA fees)

OPTION 2 ONLINE REPL COURSE

Our online RePL course is a flexible, self-paced program that allows you to study 10 units of competency in your own time. You'll learn the same material as our in-class course, but with the added convenience of being able to learn from anywhere, at your own pace. You'll then spend 2 days through the Zoom platform for further theory training and finally, come to one of our facilities located throughout Australia for a day of flight training and assessments.

Fees: \$1695 (includes the Remote Pilots Licence and Aeronautical Radio Operators Certificate (AROC) and all CASA fees)

No matter which option you choose, you'll receive the same high-quality training from Global Drone Solutions. Our instructors are experienced commercial pilots who will provide you with the knowledge and skills you need to succeed in this exciting industry.

WHAT PEOPLE ARE SAYING ON GOOGLE

EXCELLENT TRAINING EXPERIENCE

“The structure of the course was very logical and meant I could get the most out of it. There was a great balance between theory and practical components, so neither one seemed overwhelming.

The instructors were very knowledgeable and skilled at delivering the content in an easy to understand way.

The enthusiasm of all the staff really shows and it makes the course much more engaging and exciting.

I would highly recommend them to anyone looking to get into the drone industry.”
- **James K, Sept '22**

COMPREHENSIVE 5 DAYS OF LEARNING

“It’s a comprehensive 5 days of learning to get your RePL and AROC, that doesn’t mean it’s not a whole lot of fun too.

Any anxiety is quickly replaced with enthusiasm thanks to the supportive environment. The instructors are patient and knowledgeable accommodating different learning styles and skill levels.

By the end of the week there is a clear line drawn between hobbyist and professional, Those who graduate leave equipped with the Aeronautical information and awareness of the safety procedures required to make drone piloting a career...and perhaps a small network of support too.
- **Adam L, Feb '23**

GREAT TRAINING PROGRAM

“I completed the Advanced Package and the content was thorough and well delivered. Very motivational! I have really enjoyed the experience with such a professional team. Thank you!”
- **Gypsy T, Jan '23**

EXTREMELY PROFESSIONAL

“The Team at global drone Solutions, were extremely professional to deal with and provided a quality Drone Pilot and Radio Operation training course. The course content was challenging at times however with aid of the knowledgeable course presenter, the students including myself were in capable hands, and all passed the practical and theory assessments. I would highly recommend. Regards Jason G”
- **Jason G, Jan '23**

INCREDIBLE SYLLABUS

“Incredible syllabus, fantastic concept explanations and practical applications after the assessments. The whole course package was professional beyond expectation. Thanks to our assessor, Mike. Looking forward to catching up again!”
- **Grant A, Feb '23**
